Re: In the Matter of the Connect America Fund, WC Docket No. 10-90 and High Cost Universal Support; Challenge to CAF Phase I Round 2 Census Blocks Intended to Be Served by Price Cap Carriers

Dear Ms. Dortch:

On August 28, 2013, the Wireline Competition Bureau published a list of all census blocks that price cap carriers have requested funding to serve as part of the second round of Connect America Phase I and announced the start of the Phase I challenge process to determine whether the requested census blocks are unserved. CTC Telecom, Inc. dba Mosaic Telecom ("Mosaic") has reviewed and determined that several of the census blocks (enclosed in Attachment A) overlap its service territory. Mosaic is a fixed wireless provider, providing high speed Internet access in excess of 4 Mbps downstream and 2 Mbps upstream to customers within these census blocks.

I certify that I am an officer of Mosaic; my responsibilities include ensuring the accuracy of the service information reported; and under penalty of perjury and to the best of my knowledge, the information in this and the accompanying Attachment is accurate.

Sincerely,

A handwritten signature in black ink that reads "Neal Scott Behn". The signature is written in a cursive, flowing style.

N. Scott Behn
Chief Executive Officer
